

Message from Editor in Chief of Thai Journal of Gastroenterology 2007-2016

Dear Members,

This is the last issue of TJG for year 2014 and also the end of GAT Society 2012-2014 committee. We have published our journal 3 issues per year continuously more than ten years ago. There are many positive suggestions from our readers. We have more works published from our fellows' papers.

In this issue, we have a review article of "*Prevalence of antibiotic-resistant Helicobacter pylori and the effect on standard treatment*". In Endoscopic Corner and Patho Corner, we show the many types of colonic polyps and gastric polyps. Moreover, from our X-ray Corner, you can see the "*Imaging of the stomach*". We also have 6 original articles in various fields of GI researches.

In December, 10-12, hope to see you in our annual meeting with the theme of "*A Gastroenterology snapshot: where we stand*" at Greenery Resort, Kaoyai, Nakhon Rachasrima, Thailand.

Finally, another year has gone by. Leave all your worries behind. Start a new coming one with happiness, prosperity, blessing as well as my best regards. Happy New Year 2015 !!!

Duangporn Werawatganon, M.D.

The Editor in Chief
