

Message from Editor in Chief of Thai Journal of Gastroenterology 2007-2016

Dear Members

Welcome to the first issue of TJG for year 2015 and also the beginning of GAT Society 2015-2016 committee. We have published our journal with come along for more than 10 years as you have read and discovered from previous issue. There are many positive suggestions from our readers. We have more works published from our fellows' papers.

Now, glancing into our new coming issue, you will see that we have included articles on a review article of "High intensity of exercise and ischemic colitis". In Endoscopic Corner has shown the pictures from Blue Laser Imaging. In Patho Corner, we show the many types of GI infection in HIV patients. Moreover, from our X-ray Corner, you can see the "Imaging of the small bowel" and the original articles in various fields of GI researches. We would also like to express thankfulness to distinguished resource persons for contributing their articles to our TJG.

Finally, TJG editorial team strongly hopes that we will continue to receive support and collaboration from all our readers in the future.

Prof. Duangporn Werawatganon, M.D.

The Editor in Chief
